Professor Smith argues that Brexit will have a profound impact on the EU. The UK is one of the EU's largest economies, and its departure will leave a

significant hole in the EU's budget. The UK is also a key player in the EU's security and foreign policy apparatus, and its absence will make it more difficult for the EU to respond to future challenges.

Brexit will also have a significant impact on the EU's internal dynamics. The UK has always been a reluctant member of the EU, and its departure will give other Eurosceptic countries in the EU a boost. This could lead to further disintegration of the EU, which would have a profound impact on the European project.

Professor Smith's book is a timely and important contribution to the debate on Brexit. It provides a clear and concise overview of the issues at stake, and it offers valuable insights into the potential consequences of Brexit for the EU.
