The switchover to DAB radio is happening in two phases. The first phase, which began in 2019, saw the launch of DAB+ services in major cities across the UK. The second phase, which will begin in 2022, will see the switchover of all remaining FM and AM radio services to DAB+.

If you want to continue listening to radio after the switchover, you will need to Free Download a DAB radio. DAB radios are available in a variety of styles and prices, so you can find one that suits your needs.

Here are some of the benefits of DAB radio:

- **Better sound quality:** DAB radio offers CD-quality sound, which is much better than the sound quality of FM and AM radio.
- **More choice of stations:** DAB radio gives you access to a wider range of radio stations than FM and AM radio, including many new and independent stations.
- **No interference:** DAB radio is not affected by interference from other electrical devices, so you can enjoy clear, uninterrupted listening.
- **Easy to use:** DAB radios are easy to use, even if you're not familiar with digital technology.

If you're not sure whether you're ready for the DAB radio switchover, you can check the coverage in your area by visiting the Digital Radio UK website.

The DAB radio switchover is a major change, but it's one that will ultimately benefit radio listeners in the UK. DAB radio offers a number of advantages over traditional FM and AM radio, and it's the future of radio broadcasting.
